

HONEYCOMB PAPER SLEEVES

Expandable honeycomb structure wraps closely around the item, providing 360° surface protection against scratches, bumps and external impact

Honeycomb Paper Sleeves provide fast, lightweight and sustainable protection for wine bottles, jars and other fragile items.

The expandable kraft-paper honeycomb structure cushions the product, protects the surface from scratches and absorbs shocks during transport or storage. Easy to use by hand, extremely space-saving in storage.

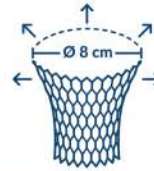

Available in different sizes and, **on request**, with **one side closed** for enhanced product protection.

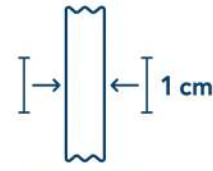

Various applications

sheets per sleeve
